

Sinochem Lantian expands trifluoroacetic acid project

RELEASED ON 31/01/13 (DD/MM/YY)

Zhejiang Chem-Tech Group Co., Ltd., a subsidiary of Sinochem Lantian Co., Ltd., has started a trifluoroacetic acid expansion project and will complete it within this year.

The expansion project will increase Sinochem Lantian's total trifluoroacetic acid capacity to over 20,000t/a upon completion.

The company also plans to construct CFC-113a feedstock integrated project.

Zhejiang Chem-Tech specializes in the research, development, manufacture and trade of fine chemicals, and main products are BIT industrial biocide series, trifluoroacetic acid, new high efficient environment-friendly fire retardant ammonium polyphosphate (APP) and organosilicon materials, etc.
