

# Contour Energy Systems opens R&D centre in Singapore

RELEASED ON 24/01/13 (DD/MM/YY)

Contour Energy Systems Inc (Contour Energy), innovator of next-generation battery systems, has announced the opening of its research & development (R&D) centre in Singapore, located at Westpark Biz Central. Founded in 2007 out of the collaboration of Caltech and the French National Center of Scientific Research, Contour Energy is a next-generation battery company, pioneering breakthrough in fluorine-based battery chemistries, nano material science and advanced manufacturing processes.
