

Butadiene plant of Chandra Asri to start production

RELEASED ON 29/01/13 (DD/MM/YY)

Chandra Asri Petrochemical is likely to start production at its new butadiene plant.

The new butadiene plant at Cilegon, West Java in Indonesia, will have a production capacity of 100,000 mt/year.

The company is likely to start commercial production at the plant in June 2013, according to a Polymerupdate source in Indonesia.
