

Restart process of ACN plant commenced by PTTAC

DATE : 2014-09-05

PTT Asahi Chemical has commenced the restart process at its acrylonitrile (ACN) plant. A Polymerupdate source in Thailand informed that the plant is expected to attain full production levels by this weekend. It was shut in early July 2014 for maintenance turnaround.

Located at Map Ta Phut, Thailand, the plant has a production capacity of 200,000 mt/year.
