

# SM plant to be shut for maintenance by Qilu Petrochemicals

DATE : 2014-09-09

Qilu Petrochemicals is in plans to shut a styrene monomer (SM) plant for maintenance turnaround. A Polymerupdate source in China informed that the plant is planned to be shut in early October 2014. The plant is expected to remain off-stream for around one month.

Located in Qilu, China, the plant has a production capacity of 200,000 mt/year.
