

# SM plant planned to be restarted by Taiyo Oil

DATE : 2014-09-14

Taiyo Oil is in plans to restart a styrene monomer (SM) following maintenance turnaround. A Polymerupdate source in Japan informed that the plant is likely to be restarted on October 1, 2014. It was shut on August 19, 2014 for maintenance turnaround.

Located at Ube in Japan, the plant has a capacity of 370,000 mt/year.
