

# Lukoil to shut Bulgarian ACN plant for 40 days in September

DATE : 2014-07-03

Lukoil will halt production at its 28,000 tonne/year acrylonitrile (ACN) plant in Burgas, Bulgaria for 40 days of planned maintenance in September, a company source confirmed on Thursday.

The outage is expected to begin around 6 September, although an exact start date is yet to be confirmed.
