

Indonesia's Chandra Asri stops BD production, issues FM

DATE : 2014-05-09

Indonesia's Chandra Asri has stopped production at its 100,000 tonne/year butadiene (BD) unit at Anyer, Cilegon, Indonesia, because of unforeseen plant equipment breakdown, market sources said on Friday.

The Indonesian producer has issued a notice of force majeure (FM) on BD on 5 May, market sources said.

The producer could not be immediately contacted for further details.
