

# Indonesia's Chandra Asri restarts BD unit after FM

DATE : 2014-05-16

Indonesia's Chandra Asri has restarted its 100,000 tonne/year butadiene (BD) unit at Anyer, Cilegon, said market players at the sidelines of the Asia Petrochemical Industry Conference (APIC).

The Indonesian BD producer declared force majeure (FM) in a letter dated 5 May to its customers, citing unplanned plant equipment breakdown.

The Indonesia producer could not be contacted immediately for comment.

APIC is held at Pattaya on 15-16 May.
