

# US Cornerstone restarting ACN plant in Louisiana after turnaround

DATE : 2014-06-06

US Cornerstone Chemical is restarting its acrylonitrile (ACN) plant in Fortier, Louisiana, following a three-week turnaround, a company source said on Friday.

The facility should be up fully early next week, the source said.

Cornerstone's site has a capacity of 240,000 tonnes/year.
