

No. 3 SM plant of FCFC to shut operations

DATE : 2014-05-20

Formosa Chemicals & Fiber Corp. (FCFC) is likely to shut operations at its No. 3 styrene monomer (SM) plant.

Located at Mailiao in Taiwan, the No. 3 SM plant has a production capacity of 600,000 mt/year.

The plant, according to a Polymerupdate source in Taiwan, will be taken off-stream for a maintenance turnaround in August 2014 and will remain shut for around 40-45 days.
