

Japan's MRC restarts butane-based MMA No 2 line earlier this week

DATE : 2014-04-18

Japan's Mitsubishi Rayon Co (MRC) has restarted its 55,000 tonne/year No 2 butane-based methyl methacrylate (MMA) lines in Otake earlier this week after a turnaround, a company source said on Friday.

The plant was taken offline earlier in mid-March for a scheduled maintenance, the source added.

MRC's currently has another 55,000 tonne/year butane-based No 1 MMA line as well as a 107,000 tonne/year acetone cyanohydrin-based MMA line at the same site.
