

VAM plant likely to be shut by Dairen Chemical

DATE : 2014-04-29

Dairen Chemical is in plans to shut its vinyl acetate monomer (VAM) plant for maintenance turnaround.

A Polymerupdate source in Taiwan informed that the plant is likely to be shut in early August 2014.

It is slated to remain off-stream for around one month. Located in Mailiao, Taiwan, the plant has a production capacity of 350,000 mt/year.
