

# SM plant shut by LG Chem

DATE : 2014-03-26

LG Chem shut a styrene monomer (SM) plant for maintenance turnaround. The plant was shut on March 23, 2014. It is likely to remain off-stream for around two weeks, according to a Polymerupdate source in South Korea. Located at Daesan, South Korea, the plant has a production capacity of 180,000 mt/year.
