

Styrene Monomer plant planned to be shut by Shanghai Secco

DATE : 2014-03-07

Shanghai Secco Petrochemical is in plans to shut a styrene monomer (SM) plant for maintenance turnaround.

A Polymerupdate source in China informed that the plant is planned to be shut later this week.

It is likely to remain off-stream for around 40-45 days. Located in Shanghai, China, the plant has a production capacity of 650,000 mt/year.
