

BD unit restarted by Lotte Chemical Titan

DATE : 2014-03-08

Lotte Chemical Titan has restarted its butadiene (BD) unit following maintenance turnaround.

A Polymerupdate source in Malaysia informed that the plant restarted on March 6, 2014. It was under a maintenance turnaround for around 3 weeks.

Located in Pasir Gudang, Malaysia, the plant has a production capacity of 100,000 mt/year.
