

# Malaysia's Lotte Chemical Titan restarts BD unit after turnaround

DATE : 2014-03-06

Malaysia's Lotte Chemical Titan has restarted its 100,000 tonne/year butadiene (BD) unit on 6 March after shutting it down for maintenance in February market sources said.

The BD unit was shut for three to four weeks for maintenance in February, according to the market sources.

Separately, the company awarded a sales tender for a 2,000-tonne BD cargo for end-March shipment this week on a floating basis, according to market sources.
