

China's Sichuan Petrochemical to start up new BD unit in mid-March

DATE : 2014-02-25

China's Sichuan Petrochemical is expected to start up its new 150,000 tonne/year butadiene (BD) unit in Sichuan province in mid-March, market sources said.

The new BD unit was initially scheduled to start up in July 2013 but was delayed due to weak market conditions, the market sources said.
