

S Korea's LG Chem will shut Yeosu BD unit for maintenance in Oct

DATE : 2014-02-28

South Korea's LG Chem will shut its 155,000 tonne/year butadiene (BD) unit at Yeosu in October, a company source said on 28 February.

"The BD unit at Yeosu will shut for 36 days in October," the source added.

LG Chem has another 160,000 tonne/year BD unit at Daesan in South Korea.

The Daesan BD unit is not scheduled to shut for maintenance in 2014.
