

Lotte Chemical Titan shuts Malaysia BD unit in Feb for turnaround

DATE : 2014-02-14

Malaysia's Lotte Chemical Titan has shut its 100,000 tonne/year butadiene (BD) unit for turnaround in Pasir Gudang, Malaysia, market sources said.

The BD unit will shut for three to four weeks for maintenance in February, according to the market sources.

Separately, the company awarded a sales tender for 2,000 tonne BD cargo for early March shipment this week on a floating basis, according to market sources.
