

# Camlin Fine Sciences to set up a wholly owned subsidiary company in Canada

DATE : 2014-02-10

Camlin Fine Sciences has decided to set up a wholly owned subsidiary (WOS) Company in Canada for undertaking trading and distribution of antioxidants, food ingredients, blends, formulations etc in US and Canadian markets. Earlier on August, the company had received its board's approval to set up a subsidiary company in Brazil. The company will set up the arm in Brazil for manufacture and sale of Food & Industrial Antioxidants, Flavouring Compounds and Post Harvest Preservatives etc...

Camlin Fine Chemicals is the world's second largest manufacturer and marketer of food grade antioxidants TBHQ and BHA.
