

SM plant to be shut by Jiangsu Leasty for maintenance turnaround

DATE : 2014-01-28

Jiangsu Leasty is in plans to shut a styrene monomer (SM) plant for maintenance turnaround.

A Polymerupdate source in China informed that the plant is planned to be taken off-stream on February 6, 2014. It is likely to remain shut for around one month.

Located in Jiangsu province of China, the plant has a production capacity of 420,000 mt/year.
