

No maintenance set for Lotte Chemical's S Korea SM plant in 2014

DATE : 2013-12-06

South Korea's Lotte Chemical will not conduct maintenance at its 580,000 tonne/year styrene monomer (SM) plant in Daesan next year, a company source said on Friday.

The facility had a maintenance this year, the source said.

Other SM producers in South Korea include LG Chem, Samsung Total Petrochemical and Yeochun NCC.
