

# China's Jiangsu Sinopec new MMA plant to start in November

DATE : 2015-10-23

China's Jiangsu Sinopec Lianyungang's new methyl methacrylate (MMA) plant is expected to begin commercial operations soon, market sources said on the sidelines of the 5th China International MMA Industry Chain Summit Forum in Wuxi.

The MMA plant located in Jiangsu province with a capacity of 100,000 tonnes/year was originally meant to start up in October, has now been postponed to November at the earliest, market sources said.
