

# China's BASF-YPC shuts BD unit for maintenance

DATE : 2015-04-02

China's BASF-YPC has shut its 130,000 tonne/year butadiene (BD) unit following the turnaround of its 740,000 tonne/year naphtha cracker in Nanjing on 1 April, market sources said.

The facility is expected to resume operations on 20 May, market sources said.
