

# Evonik expands methacrylic anhydride production capacities at its Worms, Germany site

DATE : 2015-05-22

Evonik, one of the world's leading suppliers of methacrylate chemistry products, doubled its production capacities for VISIOMER MAAH (methacrylic anhydride) at its site in Worms, Germany, in 2015.

VISIOMER MAAH is an important building block in the production of specialty methacrylates, which are used in concrete additives, paints and colorants, electronics applications, and plastics. In addition to MAAH, [Evonik Industries](#) produces and markets a wide range of specialty methacrylates as well as MMA, GMAA, n-BMA, i-BMA, and hydroxy methacrylates under the VISIOMER brand.

[Evonik](#), the creative industrial group from Germany, is one of the world leaders in specialty chemicals. Profitable growth and a sustained increase in the value of the company form the heart of [Evonik's](#) corporate strategy. Its activities focus on the key megatrends health, nutrition, resource efficiency and globalization. [Evonik](#) is active in over 100 countries around the world.
