

S Korea's Taekwang Industrial shuts ACN plant for maintenance

DATE : 2015-02-27

South Korea's Taekwang Industrial shut its 290,000 tonne/year acrylonitrile (ACN) plant on 25 February for scheduled maintenance, a company source said on Friday.

“The plant was shut down 25 February on schedule, and it will be restarted around 16 March,” the source said.

The plant is located in Ulsan, South Korea.
