

# SM plant planned to be shut by LG Chem for maintenance

DATE : 2015-02-17

LG is likely to shut a styrene monomer (SM) plant for maintenance turnaround.

A Polymerupdate source in South Korea informed that the plant is likely to be taken off-stream in March 2015. It is likely to remain off-stream for around one month.

Located in Daesan, South Korea, the plant has a production capacity of 180,000 mt/year.
