

Taiwan's Formosa Plastics to soon restart Mailiao ACN plant

DATE : 2015-02-04

Taiwan's Formosa Plastics Corp (FPC) is expected to soon restart its 280,000 tonne/year acrylonitrile (ACN) plant in Mailiao after a scheduled maintenance, a company source said on Thursday.

"The plant will be restarted in upcoming one or two days," the source said.

The plant was shut around 10-11 January for a scheduled turnaround.
