

MMA line to be restarted by MRC

DATE : 2014-12-17

Mitsubishi Rayon Co (MRC) is on schedule to restart its No.2 butane-based methyl methacrylate (MMA) line.

A Polymerupdate source in Japan informed that the line is planned to be restarted on December 19, 2014. It was shut for a maintenance turnaround.

Located at Otake in Japan, the line has a production capacity of 55,000 mt/year.
