

# VAM plant to be shut by Showa Denko for maintenance turnaround

DATE : 2014-01-06

Showa Denko is in plans to shut its vinyl acetate monomer (VAM) plant for maintenance turnaround.

A Polymerupdate source in Japan informed that the plant will be shut in March 2015. It is planned to remain off-stream for around one month.

Located at Oita in Japan, the plant has a production capacity of 175,000 mt/year.
