

Japan's Mitsubishi Gas Chemical to restart MMA plant on 20 Nov

DATE : 2014-11-13

Japan's Mitsubishi Gas Chemical Co (MGC) is on track to restart its 40,000 tonne/year methyl methacrylate (MMA) plant in Niigata on 20 November, a company source said on Thursday.

The plant was taken off line in early October for 40 days of planned maintenance.

Other Japanese producers include Mitsubishi Rayon (MRC), Asahi Kasei, Kuraray, Mitsui Chemical and Sumitomo.
