

# Introduction to CRM Lightning

## Presentation

The Solvay CRM program is bringing to the group a **single CRM solution worldwide** that **empowers** different sales, marketing & customer service teams who can **better collaborate** to identify, record and serve customer needs. It supports the objective of becoming a more **customer centric organization**, ultimately supporting **business decision making**.

The CRM solution is built around a set of business processes and underlying applications that help manage all customer information, activities and conversations. It helps to better understand every customer and deliver the right message or answer.

## Objectives & Benefits

Watch this video to know more about CRM...

With the new CRM system, you can benefit from **one source of the truth** for all customer related data and from **enhanced collaboration worldwide**.

### One global CRM system

5. Get valuable insights into your customer and market

4. Rely on one source of the truth for customer related data in a user-friendly tool

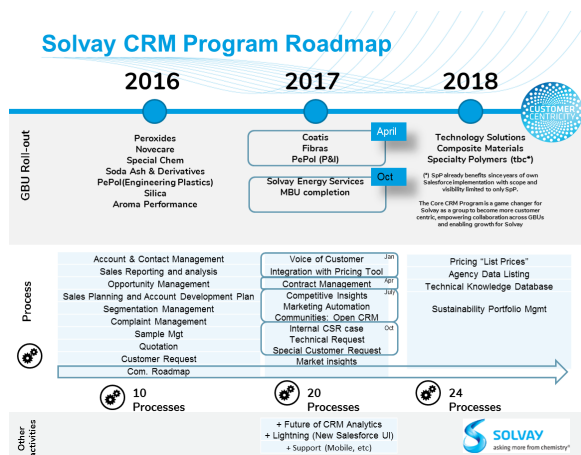

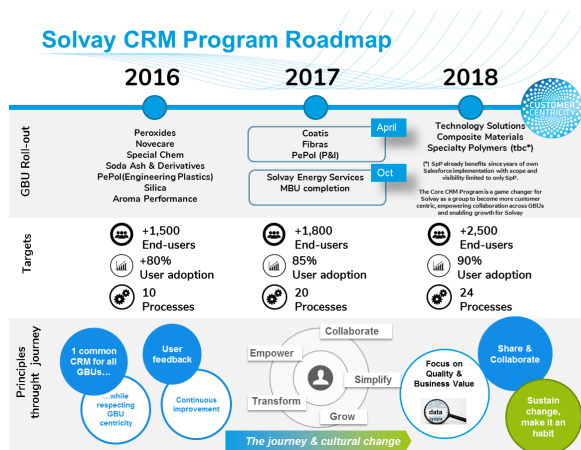

3. Save time – Get a 360° customer view at your fingertips on mobile devices

1. Get a real visibility on opportunities & accelerate time-to-market

2. Benefit from enhanced collaboration within & across GBUs (Easily share and consult info from your team and other GBUs)

# The CRM Roadmap

The Roadmap prolongs full implementation in the GBU's until 2018 to gradually integrate GBU's and new functionalities:

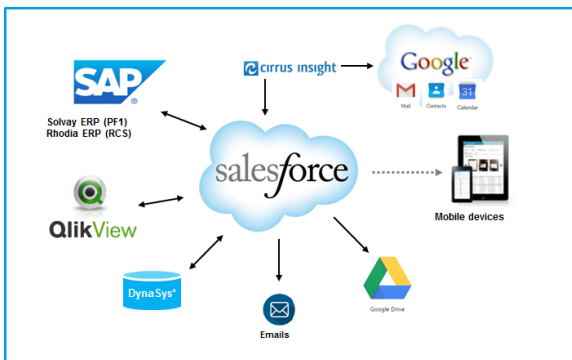

## Solvay CRM & Salesforce...

Solvay has identified [Salesforce.com](https://www.salesforce.com) as the platform to support its Customer Relationship Management (CRM). [Salesforce.com](https://www.salesforce.com) is a cloud-based platform which is quick & fast to design and build, which supports a wide range of customer related processes based on best practices and which offers a user friendly interface to accelerate ramp up and usage.

However, the Solvay CRM solution is more than Salesforce!

It is highly integrated with other systems to better meet the needs of Solvay users, and it provides a **wind ow to SAP**

## 10 key processes in CRM

The Solvay CRM solution supports 10 customer related processes that have been designed according to the needs of the GBUs.
