### 3. Tasks description

#### 3.1. I perform the monthly invoicing

The Invoice must be posted until the 10<sup>th</sup> of each month (this is the limit date for which Terna accepts to receive the invoice).

In order to we be able to issue the invoice on time we should receive the invoice request from Donatella Sogni before this date. In case no information is provided until 10<sup>th</sup> we should send a reminder to Donatella Sogni (send an e-mail through Freshdesk):

#### Highlight

The invoice request received is regarding the previous month (e.g. in April we receive the invoice regarding March period).

As you could check in the reply from Donatella (in the print above) in some months the information arrives a little late because Terna doesn't send the invoice details until the agreed date.

With the implementation of mandatory real-time electronic sales invoice issuance and reporting for Italy, from 1st January 2019 (Legge n. 205 del 27 dicembre 2017, "Legge di bilancio 2018") all relevant invoices have to be submitted to the Italian Revenue Agency's e-invoicing platform, Sistema di Interscambio (SdI). This means as soon as the invoice is issued it will be automatically submitted to the Italian Revenue Agency.

Take this into consideration in case you need to perform any further text adjustments in the invoice so the information doesn't conflict with what has been submitted to the Italian Fiscal Authorities.

### 3.1.2. I issue the intercompany invoices

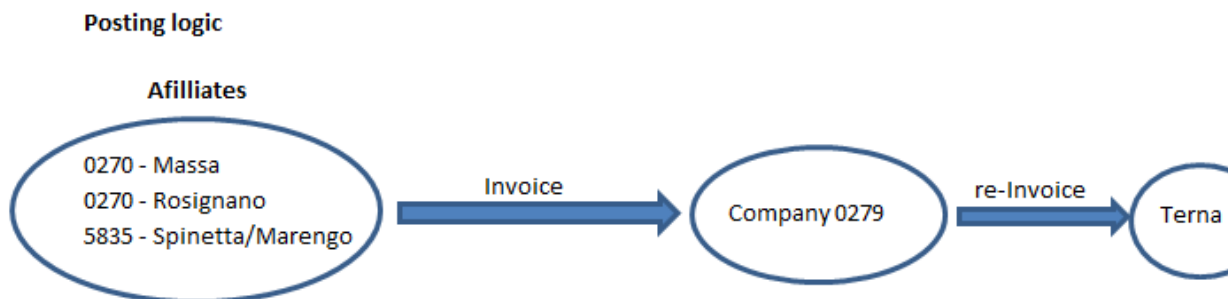

After performing the Terna invoice we need to issue the affiliate invoices. The affiliate invoices can be issued until the end of the month.

We should post an invoice from each affiliate site to company 0279, this means:

- One invoice from Solvay Chimica Italia (company 0270) site Massa to company 0279;

- One invoice from Solvay Chimica Italia (company 0270) site Rosignano to company 0279;
- One invoice from Solvay Specialty Polymers Italy (company 5835) site SPINETTA MARENGO to company 0279.

**i** The total amount invoiced by the affiliates should be equal to the amount invoiced by company 0279 to Terna because:

As mentioned before, the amounts to be invoiced by the affiliates are retrieved from the second page of the PDF:

Ragione Sociale impianto	Identificativo sito	MW Assegnati	MW Minimi Mensili	MW Medi prelevati	Potenza media percentuale	MWh da remunerare	Prezzo medio applicato	Remunerazione spettante attuale	Remunerazione spettante precedente	Saldo da regolare

After the posting is done run the invoicing steps (data enrichment + croco billing) to generate the invoices.

The tax code of the invoices issued by the affiliates is K1.  
Material is 20194703.

**i** As you would see in the point 3.1.3 *I transfer from profit account to accrual*, this transfer is already being done directly in the invoice posting.

**i** It is important to guarantee that the accounting document (C0 document) was correctly generated and to process the correspondent outbound and incoming *Idocs*.

### 3.1.3. *I transfer from profit account to accrual*

### Highlight

This step is only for the Affiliate companies.

As the invoice of the period is always posted on the month after, FA & Treasury team books always an accrual to reflect the revenue on the correct month: In our example, the invoice posted in February concerns *Interrompabilit * from January. Although the invoice was only posted in February the revenue was already recognized in the correct period (January) through an accrual posting.

Since an accrual was already posted on account 2220000000 this account will be with balance until the invoice is issued.

This is the reason why we have to transfer the invoiced amounts to account 2220000000: by transferring the invoiced amounts to the accrual account we are guaranteeing this account will be balanced:

Accrual posted on previous month by FA & Treasury team

Issuing company: 0270 - Rosignano site

Invoice posted in next month (S1 doc.) - Issued by Intercompany

Issuing company: 0270 - Rosignano site

Accrual posted on previous month by FA & Treasury team

Issuing company: 0270 - Massa site

Invoice posted in next month (S1 doc.) - Issued by Intercompany

Issuing company: 0270 - Massa site

Accrual posted on previous month by FA & Treasury team

Issuing company: 5835 - Spinetta site

Invoice posted in next month (S1 doc.) - Issued by Intercompany

Issuing company: 5835 - Spinetta site

 The cost centers used in the accruals are different for each company site:

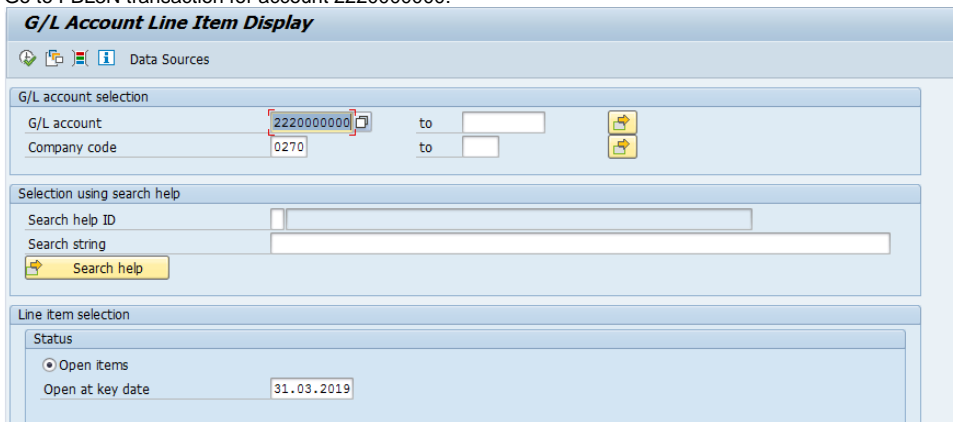

Company	Business Area	Cost Center
270 - Rosignano	7630	4S32321900
270 - Massa	7510	XR32321900
5835 - Marengo	3490	UD32321900
5835 - Spinetta	3490	JF323219VR

 **Note**

2) Check Account 2220000000 and clear the accrual (**task to be performed by FA & Treasury team**)

- Go to FBL3N transaction for account 2220000000:

- Subtotal the items by Assignment field and filter the assignment by \*Interromp\*

After the Accrual posting transfer we clear the items, and if necessary change the assignment of the postings:

On a yearly basis we receive from Donatella Sogni or CAM Francesco Piccoli the Invoices related to the annual adjustments for Electricity. The information is received normally in the beginning of next year (February/March)

E.g. in March 2016 we received the "Conguaglios" of year 2019.
