 - Publish the mag article in your homepage
 - Update "Solvay Business Solutions" discover content

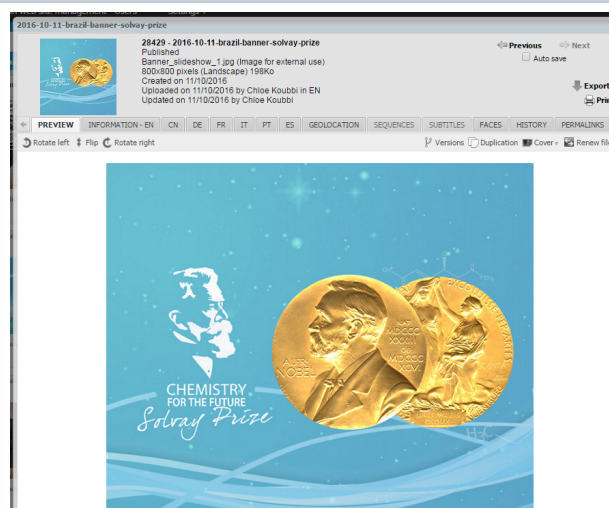

Step-by-step

Update the homepage slideshow

Upload the banner image

- Prepare banner images (size 800 x 800px)
- Upload it into [Keepeek](#), section [Internal library / Functions / Communications / banners for internet](#)

Naming convention: date-country-banner-title

Create the banner component

- In [Tridion back office](#), go to the dedicated folder to create your banner and click on New component:
 - [SW C1 Master-ZH\Building Blocks\Component1\Internet-Country\China\Country Communication\Banner](#)
 - Fill-in the name (you can use the same naming convention as the banner you just created in Keepeek)
 - Fill-in the title: it will appear on the picture
 - Browse the folders to select your picture from Keepeek
 - Add a link if needed (link to a component or to another website)
 - Save and close to save your banner.
- You can also localize banner component** from China ZH website in order to re-use them and translate them in EN language :
 - [SW C2 Translate-EN\Building Blocks\Component1\Internet-Country\China\Country Communication\Banner](#)
 - Click on the "Localize this item and open it in edit mode"
 - Modify the banner component
 - Save and close to save your banner.

The screenshot shows the Tridion back office interface. At the top, there's a navigation bar with tabs: Home, Organize, Workflow, Format. Below it, a toolbar contains various icons for file management and publishing. The main area displays the 'New component' dialog for a banner. The dialog has tabs for General, Source, Bundles, Workflow, and Info. The General tab is active, showing fields for Name (2016-10-12-Corporate-banner-K), Title (Discover a world of more sustainable and efficient material solutions. Are you ready for more? Watch the video), Short description, Picture (a blue square with a white logo), Link (Link to Tridion page: K Show 2016), External link, Keepeek Url, and Link label. Below the dialog, a preview of the banner is shown. The banner features a blue background with white text: 'Discover a world of more sustainable and efficient material solutions. Are you ready for more? Watch the video'. Above the text, it says '19 - 26 October Düsseldorf Hall 6, C61 2016'. To the right of the banner, there's a sidebar with a 'Sustainable Development' section and a 'Press' section.

Update the banner slideshow component

- Open the banner slideshow component:
 - [SW C1 Master-zh\Building Blocks\Component1\Internet Country\China\Country Communications\Homepage Banner Slideshow](#)
 - change the existing banner clicking on
 - a. add a new banner by clicking on
- Save & Close your component to save the update

The screenshot shows the Tridion back office interface. At the top, there's a navigation bar with tabs: Home, Organize, Workflow, Format. Below it, a toolbar contains various icons for file management and publishing. The main area displays the 'Edit component' dialog for a banner slideshow. The dialog has tabs for General, Source, Bundles, Workflow, and Info. The General tab is active, showing fields for Name (Japan slideshow), Title, and a list of banners. The list contains one item: 'Welcome Japan'.

Update the homepage poster

Poster can be used with only a picture, a picture and a link or like a spotlight with a title and a link

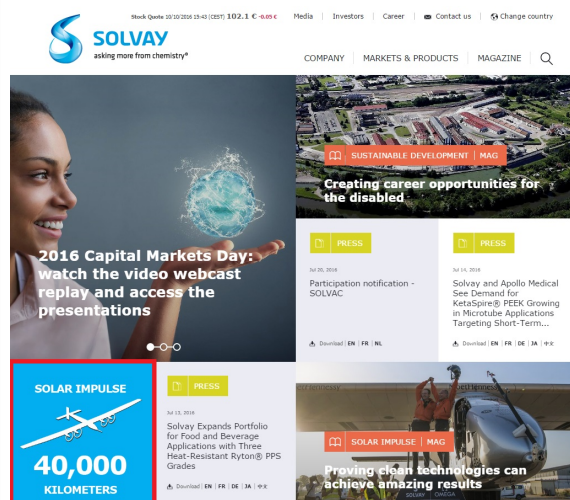

You can put only one poster in the index homepage

Create the poster image (if needed)

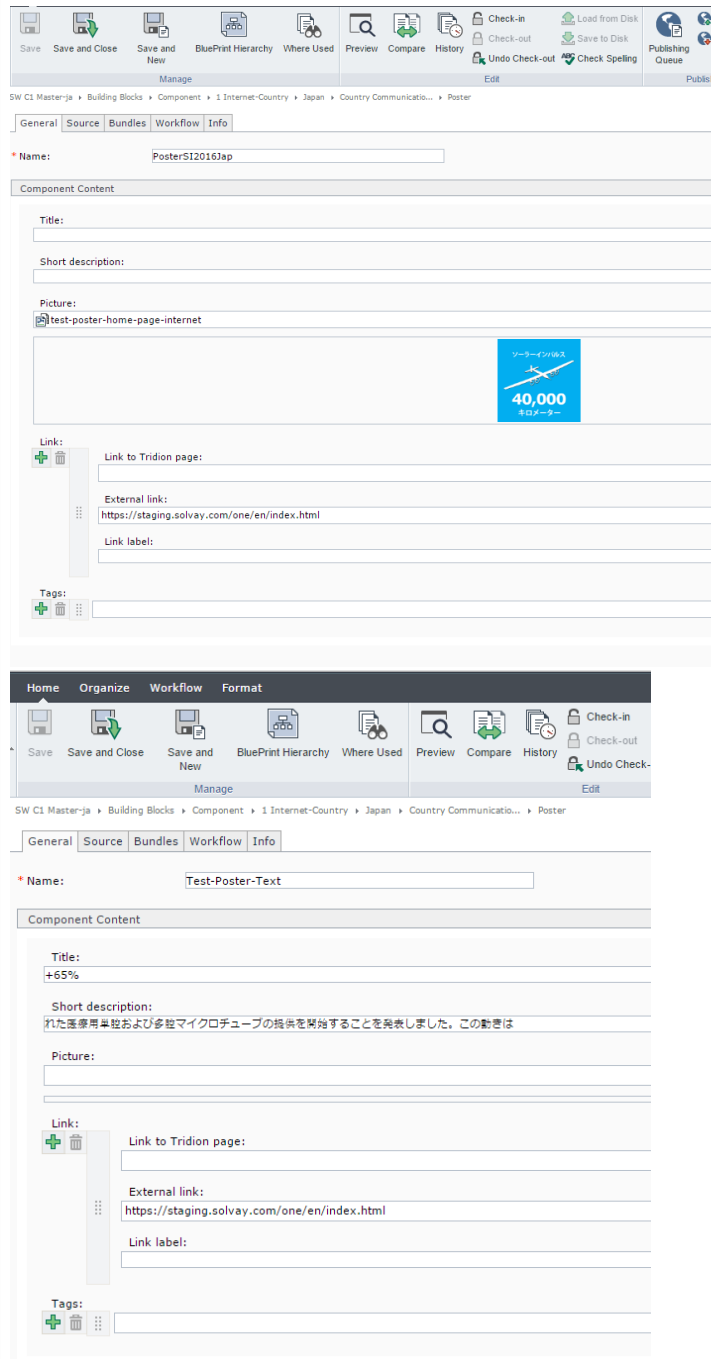

- Prepare poster images (size 400x400 px)
- Upload it into [Keepeek, section Internal library / Functions / Communications / posters](#)

Naming convention: date-country-poster-title

Create the poster component

- In [Tridion back office](#), go to the dedicated folder to create your poster and click on Create new component:
 - ISW C1 Master-zh\Building Blocks\Component\1 Internet-Country\China\Country Communication\Poster
 - Fill-in the name (you can use the same naming convention as the poster you just created in Keepeek)
 - Then, you have different possibilities:
 - add the poster image from keepeek by clicking on  then browse the folders to select your picture from Keepeek
 - Fill-in the title: it will appear on a blue background
 - Add a link if needed (link to a component or to another website)
 - Save and close to save your poster.

The screenshot displays the Tridion back office interface for creating a new component. The top navigation bar includes icons for Save, Save and Close, Save and New, Blueprint Hierarchy, Where Used, Preview, Compare, History, Check-in, Check-out, Load from Disk, Save to Disk, Check Spelling, and Publishing Queue. The breadcrumb trail shows the path: SW C1 Master-ja > Building Blocks > Component > 1 Internet-Country > Japan > Country Communication... > Poster.

The 'General' tab is selected, showing the component configuration for 'PosterS12016Jap'. The 'Name' field is filled with 'PosterS12016Jap'. The 'Component Content' section includes fields for Title, Short description, and Picture. The Picture field shows a thumbnail of a poster with the text '40,000' and '40,000'.

The 'Link' section includes fields for Link to Tridion page, External link (https://staging.solvay.com/one/en/index.html), and Link label. The 'Tags' section is also visible.

The bottom part of the screenshot shows the 'Test-Poster-Text' component configuration. The 'Name' field is filled with 'Test-Poster-Text'. The 'Component Content' section includes fields for Title (+65%), Short description (れた薬用単位および多粒マイクロチューブの提供を開始することを発表しました。この動きは), and Picture. The 'Link' section includes fields for Link to Tridion page, External link (https://staging.solvay.com/one/en/index.html), and Link label. The 'Tags' section is also visible.
