

Update your project status in BIARRITZ - Video

The screenshot displays the Accolade software interface for a project titled "Live decommissioning - Google group/Confluence migration only". The project is managed by PINGOIT, Sylvain. The interface shows a project summary with fields for Name, Description, and Project Manager. Below this is a "Project History (Filter Active)" table with columns for Date, Event, Description, and By. The table lists several events, including Gate Date Changes, Gate Decisions, and Status Reports, with detailed descriptions of each event and the responsible person.

Date	Event	Description	By
