

How to access Drupal application

Step 1: Log in to Acquia Cloud Sites Factory

Q: What is Acquia Cloud Sites Factory?

A: Acquia is the platform which will gather each solvay websites (brands and countries) developed by Drupal.

As a contributor you might have an access to several websites.

In this case, connecting to Acquia Cloud Site Factory will enable you to reach the websites you need to manage.

You will be asked to fill in two fields :

- email address
- password - the one you have chosen when you activated your account (Eg: Solvay2018)

Acquia login link: <https://www.solvay.acsitefactory.com/sites-by-group/grid>
