

How to change the client used to open Qlikview ?

To change the client used :

1. Go to [Qlikview Access Point](#)
2. On the top right corner, click on "Favorites & Profile":
3. In the "Favorites & Profile" page, click on the "Profile" tab. You can then select the "Preferred client" in the list :

[Download Internet Explorer Plugin](#)

Welcome TONDA, David
