

How to check the version of the Qlikview Internet Explorer plug-in ?

To check the version of the Internet Explorer Qlikview Plug-in :

1. Open any Qlikview Dashboard
2. Go to the "Menu" on the tool bar.
3. Select "About Qlikview" :

4. This opens the "About QlikView" window which displays the version (In the example below version 11.xx)
