

# Qlikview Access Point Sign in

## Problem

When accessing the Qlikview access point, the page requests a sign in with a user and password.

Normally qlikview will not ask you to log in and will automatically recognise you based on your windows account.

A screenshot of the Qlikview Sign In page. On the left is a large green and white Qlikview logo. To the right of the logo, the text "Sign In" is displayed in green. Below this, there are two input fields: "User Name:" and "Password:". Below the password field is a green "Submit" button.

Sign In

User Name:

Password:

Submit

## Solution

This can happen randomly due to internet browser configuration. You do not need to enter a user name or password. \* imply click on Submit and it will log you in.\*
