Next OP*

1. Objective and Scope

1.1. Objective of this Operation

The purpose of this document is to explain how the Inventory Revaluation Reverse program will work for **December** closing.

December Closing:

As a regular rule, the ZWFA100A transaction is executed monthly.

At the end of the year, however, standard cost is impacted not only by master data changes, but also by the changes in fixed cost / depreciation activity type price for the New Year (updating of expenses in cost centers and their production capacity). These changes are year specific.

Although, the program will run as usual at December closing but the postings performed will be different from a regular month:

Only the amounts related to VC (Variable Cost) Inventory Reval will be reversed in January P&L and back posted to December (D50 in KE30).

The Reval of FC (Fixed Cost) and Dep (Depreciation) should remain in January (E50 and F50 in KE30).

1.2. Scope

This procedure is applicable to all WP2 companies.

This Procedure is not applicable to WP2 companies using Material Ledger (*Brazilian and Korean companies*).

2. Definitions

See [Finance - Glossary](#)

3. Tasks description

3.1. Periodicity

December closing D2.

3.2. I run the inventory valuation reverse in test mode

STEP 1

Start the transaction ZWFA100A

Inventory valuation reverse: initial screen

The transaction can be launched in test as many times as required, to check the proposal before actual processing.

Inventory valuation reverse

Selection Criteria

Company Code	<input type="text"/>	
Posting Period	<input checked="" type="checkbox"/>	
Fiscal Year	<input checked="" type="checkbox"/>	
Valuation Class	<input type="text"/>	
Document Type	<input checked="" type="checkbox"/>	
Reference Object	<input checked="" type="checkbox"/>	
Costing Type	<input checked="" type="checkbox"/>	
Costing Version	<input checked="" type="checkbox"/>	
Valuation Variant	<input checked="" type="checkbox"/>	

Output Data

Document Type	SA
<input type="checkbox"/> Test	

STEP 2

You can look for an existing variant

by clicking on 

Select the variant and 

Enter the period to be reversed:
When you enter 01/2016, the
revaluation of stock on 01.01.2016
will be reversed & posted on
31.12.2015.

Execute 

Inventory valuation reverse

ABA?: Variant Directory of Program ZWFAR05100

Variant catalog for program ZWFAR05100

Variant name	Short Description	Environment	Protected
6526_CLOSING	6526 Inventory Revaluation	A	
6577_CLOSING	6577 Inventory Revaluation	A	
6811_CLOSING	6811 Inventory Revaluation	A	
6857_CLOSING	6857 Inventory Revaluation	A	
6875_CLOSING	6875 Inventory Revaluation	A	
6975_CLOSING	6975 Inventory Revaluation	A	
7154_CLOSING	Revaluation reverse 7154	A	
7405_CLOSING	7405-inventory revaluation	A	
REVAL_LA		A	
SCMA_6068_CLOS	SCMA_6068_CLOS	A	
SCMA_6068_TEST		A	

STEP 3

The inventory valuation reverse is displayed.

Extract the report and perform the totals by VC/CP, FC/CNP and DEP /AMO.

 Remember that **only** the amounts of **VC will be posted** in December (D50).

If it is confirmed that the sum of VC of the excel file retrieved is equal to the amount proposed for the posting, the transaction ZWFA100A can be executed in real mode.

Warning

 Selection may take a while.
Do you still want to execute the report?

STEP 3

Check the amount in the value field **D** **50 in December**, that should be the same as the result of the transaction ZWFA100A.

REMARK: Enter in the line items of the value field "D50" and make the sum or filter by the date of the posting in column "Created on".

You will find the amount on the date that you perform the posting (entry date in the system).
