

# Product Costing

[ [Worldwide](#) ] [ [EMEA](#) ] [ [NAM](#) ] [ [LAM](#) ] [ [APAC](#) ]

## Product Costing

### Document a new Operation

#### Worldwide

- [IAC 01.02. Variance analysis](#) — IAC 01.02. Variance analysis
- [I request creation or maintenance of material costing & accounting views](#) — I request creation or maintenance of material costing & accounting views
- [IAC 01.01. Costing model validation](#) — IAC 01.01. Costing model validation
- [I create the Costing & Accounting views](#) —
- [I upload the budget information into the system](#) — I upload the budget information into the system
- [I reevaluate actual price of Cost collector](#) — I reevaluate actual price of Cost collector
- [I perform the settlement of cost collector](#) — I perform the settlement of cost collector
- [I execute price calculation for activities](#) — I execute price calculation for activities
- [I distribute actual cost to activity types](#) — I distribute actual cost to activity types
- [I distribute actual cost in cost object hierarchy \(the material codes\)](#) — I distribute actual cost in cost object hierarchy (the material codes)
- [I calculate the variance in cost collectors \(production orders\)](#) — I calculate the variance in cost collectors (production orders)
- [I update an additive cost](#) — I update an additive cost
- [I calculate the standard hourly rate](#) — I calculate the standard hourly rate
- [I control the budget & activity uploaded](#) — I control the budget & activity uploaded
- [I validate the result of the calculation of the ML](#) — I validate the result of the calculation of the ML
- [I run the monthly standard cost calculation](#) — I run the monthly standard cost calculation
- [I validate the process of calculation](#) — I validate the process of calculation
- [I upload the activity type price](#) — I upload the activity type price
- [I maintain the material master data](#) — I maintain the material master data
- [I create an additive cost](#) — I create an additive cost
- [I solve the technical issues during the product costing phase before ML Calculation](#) — I solve the technical issues during the product costing phase before ML Calculation
