2.1. Definition

These material codes will be provided by the « owner tolling » and not purchased.

For the moment these articles are only for Oudenaarde (BE) and Argentina .

2.2. Material Code Structure

Requests are usually submitted by Mr Boulanger – Mr Stockmans

- NV-ARXXXX -) AR for Argentina material
- NV-RMXXXX -) Raw material for Oudenaarde (BE)

#	Main activities: MARA	Key points
1	<ul style="list-style-type: none"> • Base Unit of Measure: PC or KG • Material group – ZMZZZZ • Product division – ZZ • General item category group – NLAG (Non-stock-Material) or NORM (Standard item) • Gross weight 1 - Net weight 1 • Classification: ZZM 	

#	Main activities: MARC	Key points
2	<ul style="list-style-type: none"> • No specific data (no purchase. Grp code) • No tax • No purchasing value key • No custom code • Batch management • Automatic PO • Purchase order text - Following the request 	

#	Main activities: MVKE	Key points
3	No Sales View	

Examples:

AR for country

Display Material NV-AR0002 (Basic Data, Z708-Not Valuated Mats)

Descriptions Units of Measure Org. Levels

Material NV-AR0002 MATERIAL A ELABORAR

RM for Raw Material

Display Material NV-RM0005 (Basic Data, Z708-Not Valuated Mats)

Descriptions Units of Measure Org. Levels

Material NV-RM0005 PPA A-5000 B (RM) C700 P

#	Main activities	Key points
1	Transport Material to Production: <u>ALE MODEL</u> – Z_MAT_SERVICE
