3.2. I check the ME23N

Go to transaction ME23 with vendor 2101519 to check if there is new purchase order then updated the table below with new PO. You need to verify that any new PO is using the order numbers indicated below for each company in the account assignment, as it is the order number that settles to the jubilee provision.

Transaction ME23 then press F4 for searching.

The screenshot shows the SAP ME23N 'Display Purchase Order : Initial Screen'. At the top, there are tabs for 'Purchase Order', 'Edit', 'Header', 'Item', and 'Environment'. Below the tabs is a toolbar with a green checkmark, a dropdown menu, and several navigation icons. The main area is titled 'Display Purchase Order : Initial Screen' and contains a search field labeled 'Purchase Order' with a red box around it and a magnifying glass icon.

Insert the vendor number then click on button

The screenshot shows the SAP ME23N search results. A blue header bar at the top reads 'Purchase Order Number (4)'. Below this, there are two tabs: 'L: Purchasing Documents per Vendor' and 'M: Purchasing Documents for Material'. The 'L' tab is active. In the search results, the 'Vendor' field is highlighted with a green box and contains the value '2101519'. Below the 'Vendor' field is the 'Purch. Organization' field, which is currently empty.

It will show all the POs for the vendor number.

Confirm if all PO in SAP are in this file [INSPIRUS Purchase order](#)

If there is a new, please include in this file.

3.2.1. I check the accounting assignment.

Now, confirm if the new PO is in with the correct Accounting assignment.

Take the purchased order number and go to ME23N, click on other purchased order and in include the PO number.

Go to account assignment.
