

BAAN - Printing to the Default Windows Printer

BAAN allows to print to user's default Windows printer. To print from BAAN to the default printer, user has to select one of the following devices:

WINDOWS - to print in portrait mode

WINDOWS_LND - to print in landscape mode

To select **WINDOWS** or **WINDOWS_LND** as the printer in BAAN, the user has to enter the **device** name (WINDOWS / WINDOWS_LND) on **Select Device** screen.

Or, they can click on the arrow next to the printer name and select the right printer from the list of available printers.
