

CEM LIMS - Citrix Installation

Introduction

Citrix Receiver is used by CEM LIMS users to connect to the system.

Installation

Here's how Citrix Receiver client can be installed on any computer. The installation can be done by anyone, even the user themselves.

1. Click on Start > All Programs > Microsoft System Center 2012 > Configuration Manager > **Software Center**.
[blocked URL](#)
2. From either Available Software or Installation Status tabs, locate **CYT-Citrix Receiver 14.5 - S24-Cytec Citrix Client Install**. Be careful - there are three similarly named packages.
