

# CEM LIMS - LIMSProd ODBC Installation

If client requests to have LIMSProd (LIMS Production) ODBC connection entries installed, advise them to run *Label Manger Manager 9.8.0.0 English – INSTALL SECOND Software IBM Informix Client*package from Software Center.

1. Go to Start > All Programs > Microsoft System Center 2012 > Configuration Manager > Software Center.
2. Either from *Available Software* or *Installation Status* tabs select **Label Manger Manager 9.8.0.0 English – INSTALL SECOND Software IBM Informix Client**, then click on **Install**. (Do NOT select the entry which says **INSTALL FIRST**.)
