

SAP (Cytec)

SAP (Cytec)

SAP is Cytec's main ERP system used across all business units and all reporting levels.

There are 5 production systems in Cytec SAP:

- PE1 - Production ECC: main one used for production
- PB1 - Production BW: Business Warehouse, reporting. Used through web interface ([how-to access](#))
- PG1 - Production GRC: self-service security request related, mainly accessed from the web interface following the links sent to approvers
- PX1 - Production PI -
- PS1 - Production Solution Manager - technical, mainly used for system maintenance
