With the information extracted on previous step, it is necessary to separate the "Object Number" information.

To do it, insert a column between "Object Number" and "StatKF". Select column "Object Number" and click on "data" in toolbar and "text to columns":

Select all [cost centers](#) and [SKF](#) and paste them in the tab "SKF Period" in the current month in the file "[SKF - SSP Check 2019](#)".

M	N	O	P	Q	R	S
April				May		
Cost Center	SKF	Cost CenterSKF		Cost Center	SKF	Cost CenterSKF
4G10400000	ZZFTE0	4G10400000ZZFTE0				
4G10400000	ZZHCT0	4G10400000ZZHCT0				

The column "Cost Centers SKF" has a formula to concatenate the information in cost center and SKF column. Be sure that all cells in current month with information have the formula.

## 3.2. I Check the SKF

### 3.2.1. I Understand the Information

Check the tab "Database SKF YYYY" if there is any other information than "Missing SKF" in the current month column.

The columns in gray are the database.

The column "Comments" has information of each [cost centers](#) and [SKF](#) . It is used just to track the information if anything is missing.

### 3.2.2. I Check the Missing SKF

If there is any month column with "missing SKF" cell, it means the specific [SKF](#) for that cost center was not posted for the month.

Be careful, some [SKF](#) are posted once in January and are valid for the entire period and you will find this information in column "comments" or in transaction GR55 ZBM4 with the [SKF](#) and cost center.

- Some [SKF](#) are posted with 0 values. When it occurs, it appears that the [SKF](#) is posted in the period, even if the value is 0;
- Verify the historic if the [SKF](#) are being posted since the beginning of the month.

## 3.3. I Send the Report of Missing SKF

### 3.3.1. I Update the Report

Get the file [5782 - SKF Report](#) and update it with all information of the [SKF](#) and the missing ones. It is needed to keep the historic evolution, so after the update, save the [5782 - SKF Report](#) and the [SKF - SSP Check 2019](#) in the G-drive file:

### 3.3.2. I Send the Report to CAM and SUMAC

Send the missing [SKF](#) and the report file to [CAM](#) via freshdesk ticket. The title of the freshdesk is "5782 - SKF report MM.YYYY".
