1. Objective and Scope

1.1. Objective of this Operation

The purpose of this check is the identification of the "utilities" cost centers with posted values without planning values, because all utility CCs are considered as variable costs (CP) and when they have posted values without planning values they become fixed costs.

1.2. Scope

This procedure applies to company 7523.

2. Definitions

See Finance Glossary:

- [C.C.](#)
- [Planned Costs](#)

3. Tasks description

3.1. I verify that there is no error

Go to transaction S_ALR_87013611 and input the variant 7523_PLAN_ACT that will fill the following fields:

- **Controlling area:** Z025
- **Fiscal Year:** Current year
- **From Period:** Current period
- **To Period:** Current period
- **Plan Version:** 0

3.2. I perform the change if necessary

If there is any empty field on column "Plan Costs" (where in the same cost element there is any amount in column "Act Cost") follow the instructions below:

Go to transaction KP06 with the Layout Z-101 and fill with:

- **Version:** 0
- **From period:** previous month
- **From Period:** last month of the year
- **Fiscal Year:** Current year
- **Cost Center:** The specific cost center that must be updated
- **Activity Type:** *
- **Cost element:** *
- **Currency:** BRL

Then click on Overview screen

Activity type

Then you should copy the activity type from column that already exist in the lines above and repeat to new entry.

3.3. I verify the changes I had made

To check if the changes were done properly you should run the transaction S_ALR_87013611 with the variant 7523_PLAN_ACT and find the specific cost center and check if now the column Actual Cost and Plan Costs has values.

You should do those steps 3.1 and 3.2 for each cost center who need to be updated.

End of document.
